

YT-Agent Project Code Review

Generated: June 16, 2026

Issues Found

#	File	Line	Issue	Sev.
1	agents/error_classifier.py	22	"rate" in msg too broad - matches "bitrate","framerate" etc. Could	Medium
2	agents/planner_agent.py	125	dict class syntax requires Python 3.10+. Breaks locally on Python	Medium
3	agents/transcript_agent.py	16	RETRYABLE_FOR_FORMAT imported but never used.	Low
4	agents/transcript_agent.py	90	error_type=ErrorType.DURATION_EXCEEDED passes enum object	Low
5	ui/app.py	72-73	orig_t_log and orig_p_log assigned but never read or restored.	Low
6	nixpacks.toml	4-5	[start] cmd says "No web server yet" - stale/misleading, railway.toml overrides it.	Low

Cross-Check Results - All Passing

Check	Result
ui/app.py imports from agents/orchestrator.py	PASS
orchestrator.py imports TranscriptAgent and PlannerAgent	PASS
transcript_agent.py imports from agents/error_classifier.py	PASS
transcript_agent.py imports from core/download_engine.py	PASS
transcript_agent.py imports from core/transcribe_engine.py	PASS
planner_agent.py imports from agents/base.py	PASS
PYTHONPATH=/app resolves agents/ and core/ imports	PASS
requirements.txt has streamlit, groq, yt-dlp, python-dotenv, pydub	PASS
railway.toml has correct startCommand with PYTHONPATH=/app	PASS
nixpacks.toml installs ffmpeg	PASS
No relative imports that break on Railway	PASS
No Windows-only hardcoded paths	PASS
sys.path in ui/app.py set correctly (redundant but harmless)	PASS
Missing agents (publisher, research, reviewer, writer) - not imported anywhere	PASS - safe

Priority Fix List

Fix 1 - Medium | agents/error_classifier.py (line 22)

Tighten the rate-limit classifier

```
if "429" in msg or "rate limit" in msg or "ratelimit" in msg or "too many requests" in msg:
```

Fix 2 - Medium | agents/planner_agent.py (line 125)

Replace dict | None with Optional[dict] for Python 3.9 compatibility

```
def _parse_response(self, raw: str) -> Optional[dict]:
```

Fix 3 - Low | agents/transcript_agent.py (line 16)

Remove unused import RETRYABLE_FOR_FORMAT

```
Delete: RETRYABLE_FOR_FORMAT, from the import block
```

Fix 4 - Low | agents/transcript_agent.py (line 90)

YT-Agent Project Code Review

Generated: June 16, 2026

Use .value on enum for StepLog consistency

```
error_type=ErrorType.DURATION_EXCEEDED.value
```

Fix 5 - Low | ui/app.py (line 72-73)

Remove unused variables orig_t_log and orig_p_log

```
Delete the two orig*_log = ... assignment lines
```

Fix 6 - Low | nixpacks.toml (line 4-5)

Remove stale [start] section - railway.toml controls the start command

```
Delete the [start] section entirely from nixpacks.toml
```

Files Not Yet Created (Future Stages)

agents/publisher_agent.py - Stage 6 (not imported anywhere - safe to add later)

agents/research_agent.py - Stage 3 (not imported anywhere - safe to add later)

agents/reviewer_agent.py - Stage 5 (not imported anywhere - safe to add later)

agents/writer_agent.py - Stage 4 (not imported anywhere - safe to add later)

*None of the missing agent files are imported anywhere in the current codebase. The Orchestrator holds None placeholders for them.
No breaking issues at this stage.*
